WORK EXPERIENCE

Research Assistant 2020 - 2022

Nepalese Civil War (YouTube)

Nepalese Civil War is a youtube channel providing detailed case studies about the various battles fought on the land of Nepal during the decade-long insurgency period. The responsibilities included interacting with the people who were affected by the battles, interviewing the veterans, and even visiting the sites and documenting everything that might provide more insight on the activities back then.

Data Analyst 2021 - Present

Cloudfactory

The responsibilities as a data analyst for the specific project included;

- Constantly monitoring, interpreting, and moderating multiple streams of data, including listening to police radio and creating incidents in the app in real-time,
- Communicating with coworkers to keep users safe through real-time reporting on crime and public safety emergencies,
- Exercising superb editorial judgment on sensitive subject matter,
- Collaborating with colleagues to investigate breaking national or international news and stories,
- Working in a dynamic, fast-paced environment, willing to do what is needed and adapt to situations in real-time to support the full team.
